| • Bootstrap | • Tailwind CSS | • SASS |
| • Antd Design | • Passionate & Fast Learner | • Communication skills |

📁 PROJECTS

Food Ordering System ✍

- Developed a **Food Ordering System** using Django (backend) and SQLite (database), integrating Bootstrap for a **Seamless User Interface**.
- Achieved **streamlined food ordering processes**, robust backend functionalities, and an intuitive front-end design.
- This project **enhanced my proficiency** in Django backend development, SQLite database management, and leveraging Bootstrap to **enhance user experiences**.

E-Bazar ✍

- Designed and developed "E-bazar," a fully functional **e-commerce website** using React, **Redux**, React Router, and Tailwind CSS.
- Integrated **APIs** to enable seamless **product listing, sorting**, and other e-commerce functionalities and implemented Redux for state management.
- Gained valuable insights and practical experience in using Redux to efficiently manage and update application state, as well as in **API handling**.

Baby's Care ✍

- Designed a mobile UI to simplify finding **vaccination campaign** information, **accessing doctor details**, and **shopping** for baby care products.
- Implemented effective **typography, color schemes**, and **wireframes** on the team to ensure cohesive design implementation.
- Learned valuable insights into **user behavior, usability** principles, and **team collaboration** dynamics.

Dechen IT ✍

- Designed and **prototyped** a visually appealing and responsive UI for an IT company.
- Researched** industry best practices, and **wireframe** concepts.
- Applied knowledge of **color theory and typography** to create visually appealing designs
- Enhanced skills in **UI/UX design, wireframing**, and **usability**

LANGUAGES

- English(fluent)
- Nepali(national)
- Hindi(fluent)

TRAINING

Responsive Web Design

freeCodeCamp

- Completed Responsive Web Design training on freeCodeCamp, learning how to create websites that adapt to different screens.
- Acquired skills in designing user-friendly layouts suitable for all devices, enhancing my ability to craft versatile and appealing web interfaces.

UI/ UX Hackathon

Waterflow Technology

- Engaged in a UI/UX Hackathon at Workflow Technology, developing a comprehensive Baby Care UI on a team.
- Acquired hands-on experience in UI/UX design principles and methodologies & Team Work during the hackathon.
- Applied the learned UI/UX concepts to create a high-quality, user-centric Baby Care UI interface.
